1. Pursuant to your request for guidance made on 25 August 1959, DTR has approved informally the following PPS "policy guidance" with respect to the subject.
2. In a period of National Emergency (such as all-out war or national mobilization, etc.), we must assume that the resultant shift of requirements on CPA and change of operational emphasis will necessitate the cancellation and "shelving" of the regular Junior Officer Training Program for the duration of the emergency. More specifically:
  - a. JOT's already serving in Agency components would be under the full control of those components (DD/P, DD/I, DD/S);
  - b. JOT's in training under JOTP administration and control would either complete their training and be immediately reassigned or they would be immediately reassigned and their training (if additional is needed) redirected in consonance with the new requirements and objectives.
  - c. JOT candidates under active recruitment for the most part would be taken into the military services; however, some, such as women and 4-P's, might continue to be recruited to meet new, current Agency manpower needs. These could re-enter the JOTP after the emergency.
  - d. As soon as all current JOT's and "actively-prospective" JOT candidates have been reassigned or otherwise disposed of, the JOTP staff would be reassigned as follows:

~~SECRET~~

Officers: to XO/TR, for reassignment within OTR or to Office of Personnel, as required.

✓ Clerical: to the PO/TR, for assignment to the Personnel Staff, OTR.

(NOTE: It is recommended that JOTP Staff officers be reassigned to the Operations School, Field Training Base, to assist in the administrative handling of trainee groups comprised of Agency re-training and refresher students, Agency reservists, military augmentation of CIA, and new, wartime employees.)

✓ 3. The OTR plan should call for re-establishment of the JOTP Staff at the end of the emergency and for resumption of the Program.
